

# Digital Imaging Solutions for Business

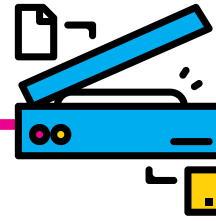

Our document transformation services will help take your business processes from paper to digital with the ability to access your critical documents from anywhere at anytime.

Introductory client meeting to determine scope of work

Prepare files for secure pickup

Processing for digital conversion and export

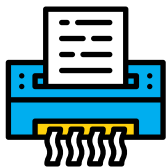

**Accountability:** However you choose to access your digital files, you will be provided a full list of your transformed documents to ensure all is accounted for and can be accessed from multiple retrieval options.

Your critical business files can now be accessed securely *from anywhere*

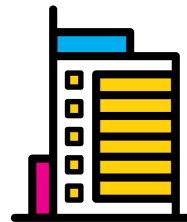

OR

Once digital conversion is complete, you have the option of having your files securely shredded or returned.
