

# Take a step towards student safety with Thermal Scanners

## Temperature Checking Students, Staff & Visitors

What strategy is your leadership team using to improve the safety of students, faculty and the greater education community? With UBEO's UTemp Scanners, you can add an extra layer of protection by checking the temperature of anyone entering a campus or district workplace.

*This innovative new technology will allow you to:*

- Implement automatic ID badge printing for staff and visitors
- Set your own acceptable temperature thresholds
- Receive instant email alerts for abnormal temperature readings or individuals not wearing a mask
- Integrate with gates, turnstiles and door access
- Use facial recognition to identify and allow entry to vetted individuals within the facial database

## A Touch-free Solution

The kiosks are completely touch-less and automated. Activated as the user approaches, the kiosk reads the user's temperature and matches their face to the database automatically.

## Why is the UBEO Thermal Scanner a better choice?

There are many sources of thermal scanning kiosks available. Why choose to purchase through UBEO when there are cheaper alternatives?

### Badge Print Option

Ensures check-in compliance

### Turn-key

Professional installation by certified engineers

### Integration

Connect with existing systems

### Extended Support

36-months of device maintenance

## Flexible & Innovative Technology

The flexible configuration allows for multiple mounting options and has the ability to integrate with existing software such as, HR management systems, time-clock software, access control systems, attendance tracking and much more. To learn more about how to fully leverage this new technology, reach out to us!
